# Charity 2010

BY SCHOCKEMÖHLE SPORTS

The German Association for Therapeutic Riding (DkThR) and Schockemoehle Sports have founded the project "Charity 2010".

For this campaign Schockemoehle Sports has developed a special edition of saddle pads, fleece bandages and fly veils, which show a unique design. Furthermore these items are equipped with an individual charity labelling and a nice key ring. For every sold item one Euro will be **donated** to the children support fund (KUF) of the DKThR. The "Charity 2010" products are expected to be available in tack shops from May 2010.

The idea for this project comes from other successful campaigns like the initiative for drinking water, done by Volvic or Pampers' Tetanus program in cooperation with UNICEF.

Following these very meaningful campaigns Schockemoehle Sports and the DKThR want to start an initiative, which supports people who really need help. "Charity 2010" was founded with the intention to become a permanent campaign.
